**EVERY BIKE
HAS A MISSION**

INTRO

KELLYS AND KLS BICYCLE CLOTHING AND GEAR, SMART ACCESSORIES AND HIGH-QUALITY PARTS ARE DESIGNED BY BIKERS FOR BIKERS, TO BRING MORE JOY, SAFETY AND STYLE TO EVERY RIDE. IT DOES NOT REALLY MATTER IF YOU ARE A MOUNTAIN BIKER, ROAD RACER, URBAN COMMUTER OR RECREATIONAL RIDER. YOU ALWAYS DESERVE THE BEST RIDING EXPERIENCE, AND OUR MISSION IS TO MAKE IT POSSIBLE.

RESEARCH & DEVELOPMENT

DEPARTMENT

CREATION OF A REAL BIKER'S PRODUCT IS A PROCESS WHERE THE LATEST ENGINEERING KNOWLEDGE, THE BEST MATERIALS AND TRUE CYCLING PASSION ARE NEEDED TO BE ENCLOSED IN A USEFUL BUT ALSO BEAUTIFUL FORM. HOWEVER, WE BELIEVE THAT IT IS NOT ENOUGH...

Kellys Research and Development team is a group of people who are not only ingenious engineers and inventors but also active riders, who knows the bikers needs and demands the best. When creating the new products, they always add the unique particle of Every Bike Has a Mission philosophy, which is why every new idea starts with the sense of a mission which needs to be fulfilled. We believe that this is the only way to add something special to every ride, something which cannot be measured, tested or described. This is something which every biker can feel only when using Kellys products.

This is the reason why we are proud of all Kellys bicycle accessories and parts, cycling clothes and gear, carrying the unique particle of Kellys' **EVERY BIKE HAS A MISSION** philosophy.

ACCESSORIES

RIDER

ROAD

ESSENTIALS

1 RIVAL long sleeve jersey 2 RIVAL bibshort 3 RIVAL gloves 4 DICE sunglasses 5 SCORE helmet 6 JET 8 backpack 7 RIVAL socks

Smart reflective prints to keep you visible during the dark

Stand up collar to shade your neck during the sunny days

Back pockets with one 1 zipper pocket for easy on-to-go access

Short raglan sleeves for higher comfort

RIVAL blue

RIVAL black

Light breathable fabric with mesh inserts

Full length zipper and mesh back part increase body ventilation

Longer back part for coverage when riding

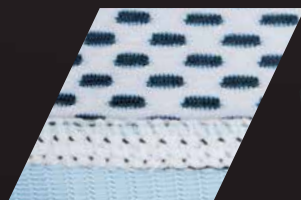

Soft silicon gripper

RIVAL JERSEY SHORT SLEEVE

Premium short sleeve jersey with full length zipper is developed in ergonomic fit that adapts to your needs as a road or cross-country rider. Jersey combines a light breathable fabric with mesh inserts for maximum ventilation and moisture control. Thanks to 3 back pockets including one zip pocket you will have room to bring all your gear and nutrition boosts you need during your ride. Rival jersey with elegant graphic and distinctive racing style with smart reflective prints will keep you pedalling for hours, even in the dark.

LARA

LOOSE SHORTS

Universal loose cycling shorts made of light but durable outer material for comfort and wide range of movement. Detachable inner lycra shorts with antibacterial anatomically shaped multi-level padding. With reflective printing for your safety.

SIZES: S, M, L, XL, XXL

RIVAL

WINDPROOF JACKET

Kellys Rival jacket will be your top choice to compete against the wind and the rainy weather. Bright color of the membrane jacket fabric will make you visible on the road even from the distance. This jacket is made of the ITTAI® windproof and water repellent material with excellent breathability. On the top of this the jacket has back opening which keeps you ventilated during the ride. Thanks to the 3 back pockets you will have room to bring all belongings you need with you and you'll stay visible even in the dark with the reflective printing.

SIZES: S, M, L, XL, XXL

PRO SPORT WIND

JACKET

PRO RACE ISOWIND jacket is made from combination of wind blocker membrane and breathable fabrics. This combination offers you wind protection with optimal breathability. The jacket has full length zipper which allows you to control your body temperature easily and high collar which keeps the wind and moisture off the neck. Jacket is made in simpler look for more leisure rides and it's added by the reflective printing for better visibility during the rides in the dark.

SIZES: S, M, L, XL, XXL

WIND PACK

JACKET

Ultralight and windproof jacket made of micro-polyamid fibres with rip-stop treatment (against tearing). You can stuff this jacket into its own pocket to put into your back pack or even into your jersey back pocket. So the jacket is allways available when the weather turns nasty or for a chilly downhill. There is plenty ventilation thanks to mesh on the back and in the arm pits for higher breathability. With reflective Kellys logo for your safety.

COLORS: black, green

SIZES: S, M, L, XL, XXL

DICE

Lightweight two-piece Grilamid TR90 frame for easy lens swapping and comfort

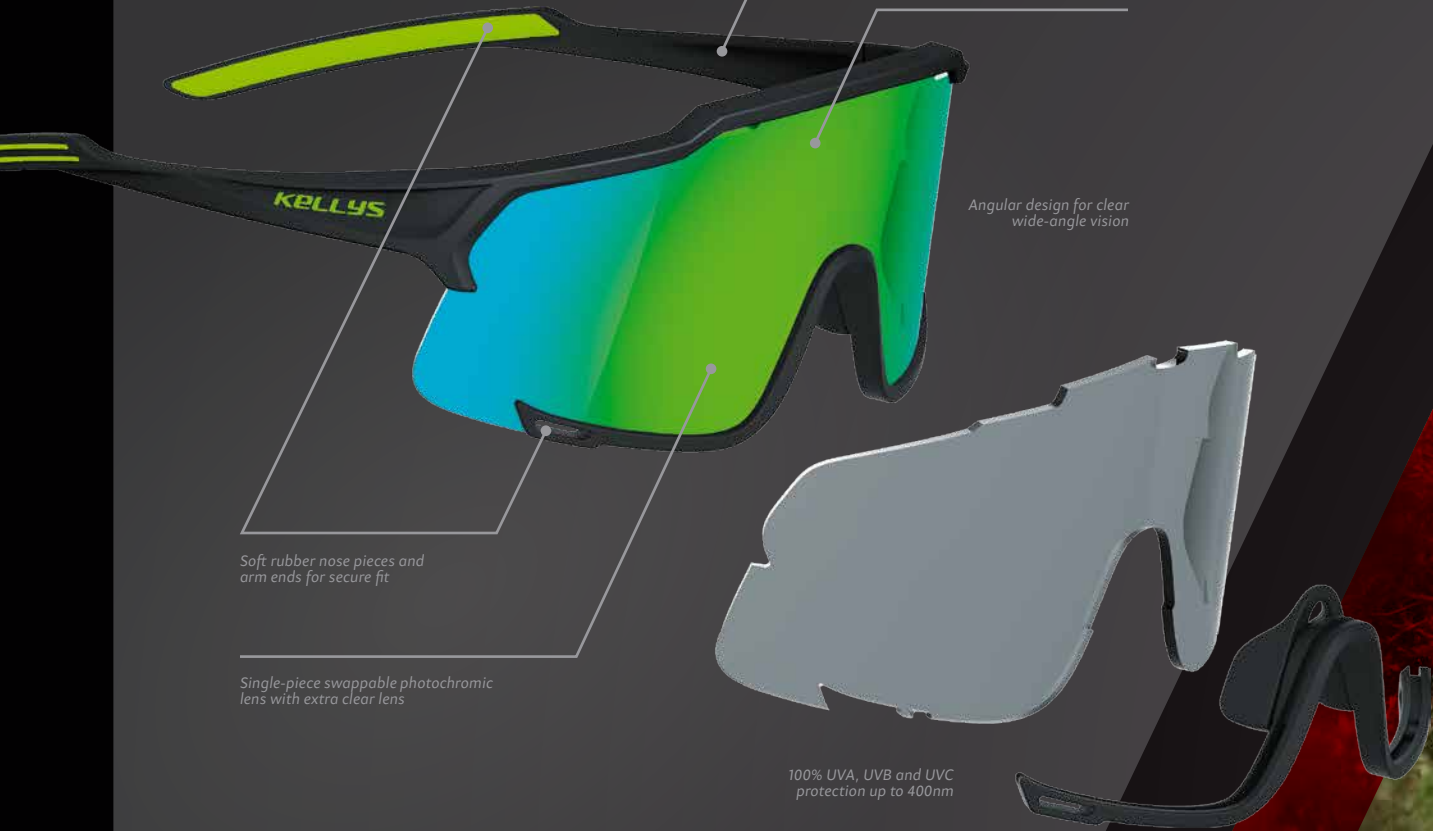

Anti-fog, anti-water and anti-scratch lens coating for best visibility and durability

Angular design for clear wide-angle vision

Soft rubber nose pieces and arm ends for secure fit

Single-piece swappable photochromic lens with extra clear lens

100% UVA, UVB and UVC protection up to 400nm

KELLYS DICE - LIGHTWEIGHT HIGH-PERFORMANCE CYCLING EYEWEAR WITH CRYSTAL-CLEAR OPTICS AND SWAPPABLE PHOTOCROMIC LENSES.

Thanks to angular design along with UV filters, anti-water and anti-fog coating, Kellys Dice glasses endure distinctive wide-angle vision under all weather condition. For high durability the anti-scratch coating to the lenses was added. Lightweight and comfortable two-piece frame made of Grilamid TR90 makes swapping lens a breeze and ensures high durability.

FRAME

All types of sun glasses are made of Grilamid TR90, which is characterized by an extremely high flexural strength, flexibility and lightweight. Grilamid TR90 also excellently resists weather conditions and the effects of UV radiation. This material therefore ensures a long frame durability even during high performance.

ANTI-SCRATCH COATING

All lenses are equipped with special surface treatment which increases scratch resistance.

ANTI-FOG COATING

This lens treatment prevents fogging for certain time to avoid reduced visibility.

ANTI-WATER COATING

Surface treatment improves off-take of water droplets. It helps to keep the vision clear and without any distortion.

POLYCARBONATE LENSES

These lenses are characterized by lightweight and depending on the finish also by high durability and scratch-resistance.

PHOTOCHROMIC LENSES

Photochromic lenses are made of Polycarbonate. Depending on the intensity of UV radiation the lenses will be darker. If the UV radiation is removed (indoors or inside the car), the lenses will return to their clear state. These lenses are recommended to use outdoor only.

POLARIZED LENSES

The sun light itself is not polarized – it becomes polarized after the impact on a shiny surface (snow, water surface or road), when the reflected waves oscillate in two levels – horizontal and vertical. Sunglasses with polarized filter allow only the positive vertically reflected rays to reach your eye. Looking through such sunglasses is comfortable, clear and without glare. The horizontal group of sun rays is blocked out by the polarized filter. These lenses allow a colorful vision, better visual clarity and notable relief for the eyes.

FILTER CATEGORY	TINT	USE	LIGHT TRANSMITTANCE

4	Very Dark*	Very Sunny (glacier)	3	8

*Inappropriate for driving a vehicle and for using in road traffic

HELMETS

RAZOR

RAZOR

ENDURO HELMET WITH MIPS®

WHEN HITTING THE MOST DEMANDING TRAILS THE ONLY THING YOU WANT TO FOCUS ON IS JUST RIDING. YOUR CONFIDENCE CANNOT BE SACRIFICED FOR ANYTHING ELSE, ESPECIALLY FOR SAFETY AND COMFORT. THEREFORE KELLYS DESIGN TEAM CREATED A BRAND NEW RAZOR - ONE OF THE MOST ADVANCED ENDURO HELMETS EVER PRODUCED.

BENEFITS

Thanks to MIPS Brain Protection System Razor gives added protection against rotational violence to the brain during an angled impact.

Razor allows you to stay cool and comfortable on trail much longer than other helmets.

Because style really matters, you can match your Razor perfectly to your preferences and find your own colour combination. Each Razor comes with an additional spare visor.

Razor provides you with safety, comfort and style – all you need to do is just ride. Ride hard.

To prevent accidental damage of your Razor and keep it in fine shape for a long time each helmet comes with a special protective bag.

Analytical section of the RAZOR helmet displaying the MIPS low friction layer

THIS IS HOW MIPS WORKS

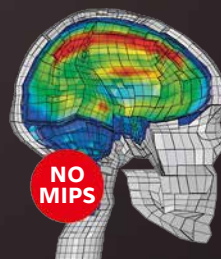

TAKING A FALL WITH A MIPS HELMET IS VERY DIFFERENT

Almost every time you fall*, you fall at an angle. This generates rotational violence to the brain causing concussions and more severe injuries.

A TRADITIONAL HELMET

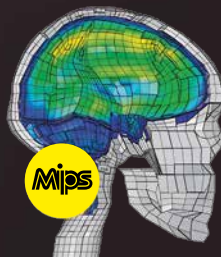

Helmets are designed and optimized for a straight fall, giving no consideration to the angled impact. All rotational violence is absorbed by the head and the brain.

Rotational violence with standard helmet

RAZOR HELMET EQUIPPED WITH MIPS®

MIPS is a low friction layer inside the helmet that makes the outer shell of the helmet to rotate relative to the head. This can reduce strain in the brain during angled impacts.

Rotational violence using a helmet with MIPS®

STRAIN LEVEL High  Low

MISSION:

THE DARK RIDER

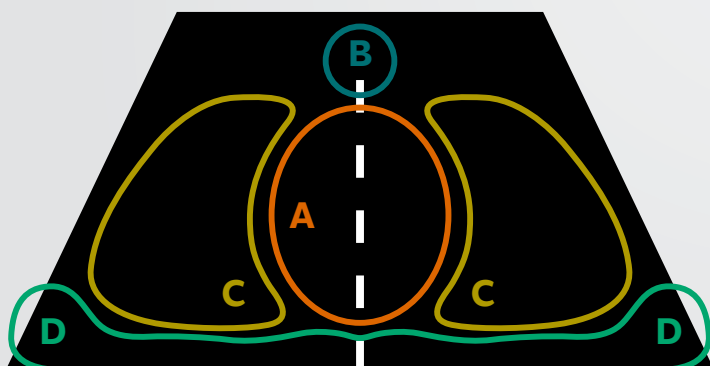

LIGHTS

IT'S NOT ALL ABOUT THE LUMENS
- OPTICS MATTERS!

IF YOU HAVE A HI-POWER LIGHT WHICH SENDS ALL THE LIGHT INTO ONE SMALL POINT IN THE DISTANCE - YOU WON'T SEE MUCH WITH YOUR 6 000 LUMEN LIGHT. LENS AND REFLECTOR NEEDS TO DIRECT A STRONG BEAM OF LIGHT INTO THE DISTANCE, WHILE A WIDE-ANGLE OF "DIMMER" LIGHT IS DISTRIBUTED EVENLY AT YOUR SURROUNDINGS.

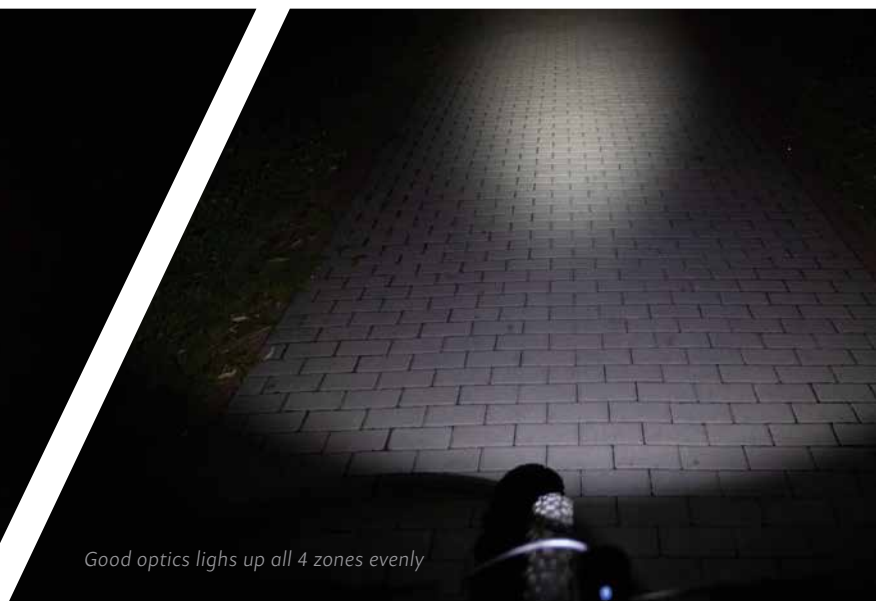

There are 4 zones which needs appropriate lightning:

- A - CENTER AREA
- B - FAR DISTANCE
- C - SIDE AREAS
- D - VERY CLOSE DISTANCES

Good optics take care about all the areas.
For us in KLS - this is the very basics of „good light“.

A lot of lights on the market takes care only about the zone „A“

Good optics lighs up all 4 zones evenly

ZOOMER

HEADLIGHT

Zoom lens: 3-140°

Source of light: 1x XM-L T6 LED (USB) / 1x Cree LED (AAA)

Functions: 100%, 50%, 25%, Flashing

Double-click for turning ON, long-press for turning OFF

Battery lifetime (AAA): 60hrs (100%), 30hrs (50%), 15hrs (25%), 180hrs (Flashing)

Battery lifetime (USB): 3hrs (100%), 6hrs (50%), 12hrs (25%), 12hrs (Flashing)

Battery indicator (USB): Off (100-25%), Red (24-5%), Flashing Red (<5%)

Charging time: (USB) 5,5 hrs

Battery type: 18650 Li-ion 3,7 V 2400 mAh (USB) / 3x AAA (included)

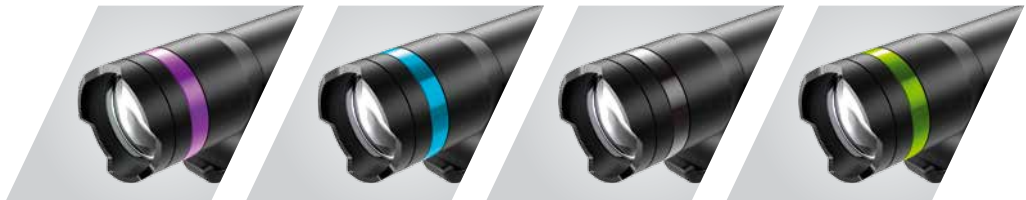

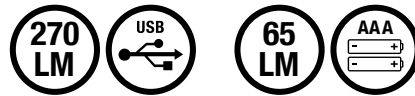

USB cable included (USB)

Universal tool-free bracket fits all common handlebars

IPX 4 (Water resistant)

COLOR Rings (included in packaging):

Red, Green, Blue, Purple, Black

PERSEUS

ANTARCTICA

WATER BOTTLE 0,65L/0,5L

Original KLS design. Double wall with airspace and special aluminum foil. Bottle ANTARCTICA is a soft, lightweight, easy-to-use insulated bottle that keeps beverages cool or warm. Ultra-wide cap with rubber mouthpiece. Ultra-cap is easy to open, effortless to use, and leak-proof when closed. Made with BPA FREE technology for clean, pure refreshment. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 60 °C
Made from BPA-free plastic

WEIGHT: 0,65L-160g / 0,5L - 140g

COLORS: charcoal black, shiny white

TULAROSA

WATER BOTTLE 0,75L

Original KLS design. Ultra wide cap with rubber mouthpiece. Ultra cap is easy to open, effortless to use, and leak-proof when closed. Made with BPA FREE technology for clean, pure refreshment. Suitable for water isotonic drinks, and other sport drinks without CO₂ up to 40 °C

Made from BPA-free plasticity

WEIGHT: 95g

Volume: 0,75L

COLORS: blue, green, grey, orange, red, pink

NAMIB

WATER BOTTLE 0,7L

Original KLS design. Ultra-wide cap with rubber mouthpiece. Ultra-cap is easy to open, effortless to use, and leak-proof when closed. Made with BPA FREE technology for clean, pure refreshment. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 60 °C

Made from BPA-free plastic

WEIGHT: 82g

COLORS: anthracite-white, transparent-lime, transparent-blue, transparent-pink, transparent-black

MOJAVE

WATER BOTTLE 0,5L

Original KLS design. Wide cap with rubber mouthpiece. Made with BPA FREE technology for clean, pure refreshment. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 40 °C

Made from BPA-free plastic

WEIGHT: 68 g

VOLUME: 0,5L

COLORS: transparent white, transparent grey, transparent blue, transparent green

SPORT

WATER BOTTLE 0,7L

Ergonomic shape and original design, wide bottle-neck for easy cleaning and filling, soft lockable mouthpiece from soft plastic BergaFlex™, made of high quality and proper hygienic, materials polypropylene Borealis / Mosten,

WEIGHT: 75g

COLORS: white, blue, lime, red, green, antracit

KALAHARI

WATER BOTTLE 1L

Original Kellys design, Wide bottleneck for easy cleaning and filling, Soft lockable mouthpiece made of soft plastic BergaFlex™, Made of high quality polyethylene, Suitable for water, isotonic drinks and other sport drinks without CO2 up to 40°C,

WEIGHT: 117g

COLORS: semi-transparent anthracite-red, semi-transparent white-grey

ATACAMA

WATER BOTTLE 0,65L

Original KLS design. Made with BPA FREE technology for clean, pure refreshment. Rubber mouthpiece with dust cover. Mount piece is easy to open, effortless to use, and leak-proof when closed. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 40 °C

Made from BPA-free plastic

WEIGHT: 80g

COLORS: black, orange, green, purple, tiffany blue

RANGIPO JUNIOR

WATER BOTTLE 0,38L

Original KLS design fits children bikes. Made with BPA FREE technology for clean, pure refreshment. Childproof undetachable rubber mouthpiece to avoid suffocation. Mount piece is easy to open, effortless to use, and leak-proof when closed. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 40 °C

Made from BPA-free plastic

WEIGHT: 60g

COLORS: blue, pink

PUMPS

AIRTANK

Tank charge/wheel direct pump switch

Heavy-duty alloy 3-in-1 valve head - Presta, Schrader, and Dunlop-type compatible

Hi-volume pressure tank provides an instant air blast for easy tubeless tire fitment

Accurate pressure gauge for precise pressure measurement up to 240psi/18bar

Ergonomic rubber-coated handle and solid base for comfort and safety
Elastic hi-pressure hose (125 cm)

AIRTANK

FLOOR PUMP

Alloy service pump with Airtank
Inflates tubeless ready tires
Switchable Schrader/Presta/Dunlop
Ergonomic handle for comfortable pumping
Stable die-cast base covered by rubber for even better stability
Top mounted gauge

MAXIMUM PRESSURE:

240 psi/18 bar

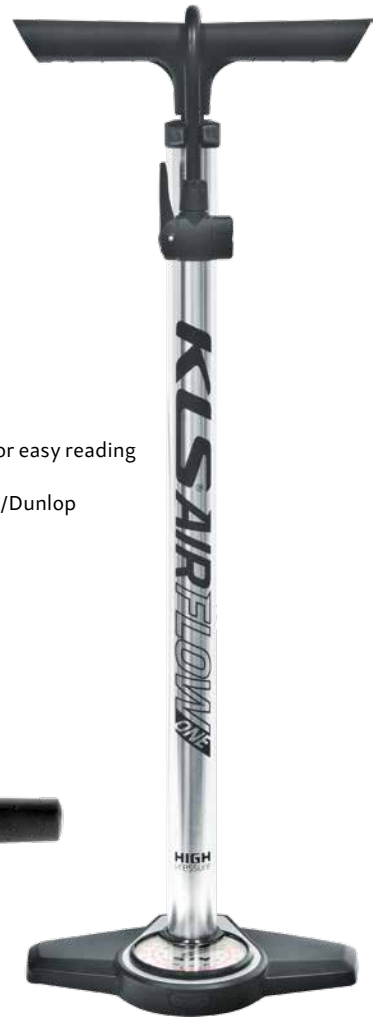

AIRFLOW ONE

FLOOR PUMP

Alloy Service pump
Large pressure gauge in base for easy reading
Ergonomic handle
Dual head for Schrader/Presta/Dunlop
Hose **LENGTH:** 940mm
Handle: 240 x 37mm

MAXIMUM PRESSURE:
160 psi/11 bar

AIRFLOW TWENTY FIVE

FLOOR PUMP

High pressure aluminum service pump
Die casting aluminum base
Two-sided valve suitable for Schrader, Presta and Dunlop
Large 3" base mounted gauge, easy to read
Hose **LENGTH:** 126cm
Handle: 27 x 3.7 cm

MAXIMUM PRESSURE:
260psi / 18 bar

MAGNUM

FLOOR PUMP

Alloy floor pump
Pressure gauge
Dual head for Schrader/Presta/Dunlop
Ergonomic handle with rubber grip zones
Stable base

MAXIMUM PRESSURE:
160 psi/11 bar

TWISTER PRO

FLOOR PUMP

Light weight plastic pump
Wider shaft for easy pumping
Dual head for Schrader/Presta/Dunlop
Wide base for stability
Half-height big round gauge

MAXIMUM PRESSURE:

160 psi/11 bar

TWISTER

FLOOR PUMP

Light weight plastic pump
Wider shaft for easy pumping
Dual head for Schrader/Presta/Dunlop
Wide base for stability

MAXIMUM PRESSURE:

160 psi/11 bar

CLASSIC

TRAVELPUMP

Aluminium alloy pump
Combination of minipump with performance of floor pump
Hose ergonomically nested in oval
Reversible head for Schrader/Presta valve
Foldable T-handle
Integrated metal pedestal, including frame bracket

WEIGHT: 209g

MAXIMUM PRESSURE:

120psi/8 bar

COVERT

PUMP

Compact mini floor pump usable also as portable hand pump
1" pop-out precise hideable gauge - sliding out by stepping down metal footpad
18mm alloy telescopic barrels for Big-Volume/Hi-Pressure modes
Pinch-Free T-handle
CNC valve core and cap
Patented auto-switching Twin Head fits schrader/presta with thread for valve engagement
Valve head with plugs against dust

LENGTH: 300mm

WEIGHT: 216g

MAXIMUM PRESSURE:

120psi/8 bar

OMNI

MINIPUMP

All in one mini pump
Shock/Schrader/Presta/Dunlop
Multi-directional hose
Bleeder for fine tuning pressure
Gauge for Bar/PSI reading
High pressure – Big volume switch

WEIGHT: 218g

LENGTH: 260mm

MAXIMUM PRESSURE:

300 psi

DRIFT

MINIPUMP

Minipump suitable for MTB
Made by CNC technology
Patented auto switching dual head fits Schrader /Presta
Big barrel
Length: 215mm

MAXIMUM PRESSURE:

80psi/5 bar

PULSE

MINIPUMP

Compact- lightweight - plastic body
Reversible Schrader/Presta
Thumb Lock system
Space in the handle for repair set
or tools.

Including bracket

LENGTH: 255mm

WEIGHT: 130g

MAXIMUM PRESSURE:

80psi / 5 bar

DOUBLY PRO 30

ERGONOMIC ALLOY MINI PUMP

Dual head for Schrader/Presta/Dunlop
Ergonomic T-Lock handle

WEIGHT: 137g

LENGTH: 265mm

MAXIMUM PRESSURE:

80psi/5 bar

DOUBLY PRO 10

ERGONOMIC PLASTIC MINI PUMP

Dual head for Schrader/Presta/Dunlop
Telescopic

Ergonomic T-Lock handle

WEIGHT: 128g

LENGTH: 265mm

MAXIMUM PRESSURE:

100psi/7 bar

DOUBLY PRO 50

ERGONOMIC ALLOY MINI PUMP

Dual head for Schrader/Presta/Dunlop
Telescopic

Ergonomic T-Lock handle

WEIGHT: 153g

LENGTH: 265mm

MAXIMUM PRESSURE:

100psi/7 bar

SHOCKER 70

HIGH-PRESSURE PUMP

Alloy high pressure pump
With pressure gauge
Covered fine tuning pressure
bleeding valve
Swivel hose for easy pumping
Ergonomic handle

LENGTH: 260mm

WEIGHT: 190g

MAXIMUM PRESSURE:

300 psi/20 bar

SHOCKER 50

HIGH-PRESSURE PUMP

With pressure gauge
Fine Tuning pressure bleeding valve
2-stage non-leakage valve
Swivel hose for easy pumping
Plastic upper & lower handles
Pinch-Free locked T-handle

LENGTH: 260mm

WEIGHT: 190g

MAXIMUM PRESSURE:

300 psi/20 bar

HOW TO CHOOSE A LOCK

MAYA

TRIANGLE MTB EXPEDITION BAG

Made of 600D polyester/ 1200D Nylon/ Tarpaulin
Adjustable velcro strap fastening
Expandable thanks to simple zip
VOLUME: 2,8 - 3,8L

AURA

MTB HANDLEBAR EXPEDITION BAG

Made of 600D polyester/Nylon 1200D
Waterproof insert easy to take out
3M reflective stripe
Attachments for other possible accessories
Velcro strap attachment fits all types of handlebars
VOLUME: 9L
DIMENSIONS: 66cm x 37cm x 10cm

TANAYA

REAR MTB EXPEDITION BAG

Made of 600D polyester/Nylon 210D
Water resistant materials keeps your goods dry
3M reflective stripe
Velcro strap attachment fits all seat posts
Side pockets with quick access
Rubber straps can carry extra load
VOLUME: 7L
DIMENSIONS: 57cm x 17cm x 20cm

ADVENTURE 40

REAR PANNIER BAG

Made of 600D polyester/Poly honeycomb/Nylon 210D
 Two main compartments with two side pockets
 Two rear zipped pockets
 3M reflective piping
 Fastening on rear carrier by straps and hooks
 Waterproof raincover in lime colour with taped seams included in bottom pocket.

VOLUME: 40L

DIMMENSIONS: 32cm x 20cm x 40cm (one side)

ADVENTURE 20

REAR PANNIER BAG

Made of 600D polyester/Poly honeycomb/Nylon 210D
 Two main compartments with two smaller side pockets
 Rubber band on the top of the bag
 3M reflective piping
 Fastening on rear carrier by straps and hooks

VOLUME: 20L

DIMMENSIONS: 33cm x 10cm x 28cm (one side)

SPACE 15

REAR PANNIER BAG

Made of 600D polyester/Poly honeycomb/Nylon 210D
 Extendable 2 side pockets
 Inside mesh pocket
 Rubber band on the top of the bag
 3M reflective piping
 Safety light attachment
 Velcro strap fastening
 Detachable shoulder strap

VOLUME: 15L

DIMMENSIONS: 32,5cm x 28cm x 19cm

SPACE 12

REAR PANNIER BAG

Made of 600D polyester
Two side pockets
Reflective piping on the side and back
Safety light attachment
Velcro strap fastening

VOLUME: 12L

DIMENSIONS: 30cm x 18cm x 23cm

SPACE 10

REAR PANNIER BAG

Made of 600D polyester/Poly honeycomb/PVC leather/Nylon 210D
Two side pockets
Inside mesh pocket
Rubber band on the top of the bag
3M reflective piping

VOLUME: 1,1L
DIMENSIONS: 19cm x 9cm x 7cm

NAVIGATOR

UNIVERSAL SMART PHONE OR GPS HOLDER BRACKET

Softly padded for protecting phone surface
Bracket could be 360 degrees rotated
Tool less installation or removal
Extendable Arms can hold devices with the size up to 95mm*185mm

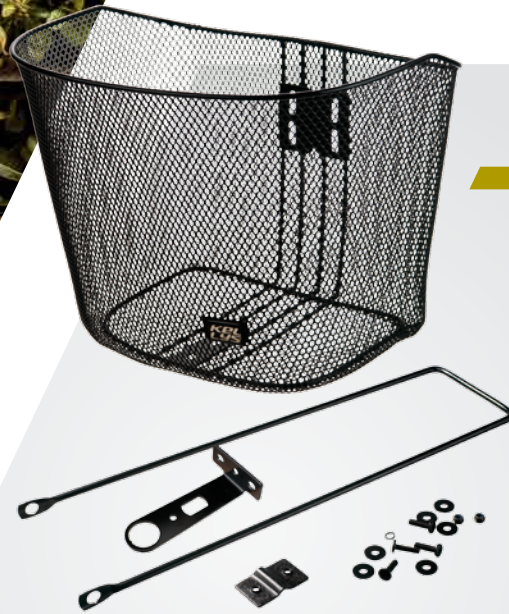

CARGO

FRONT BASKET

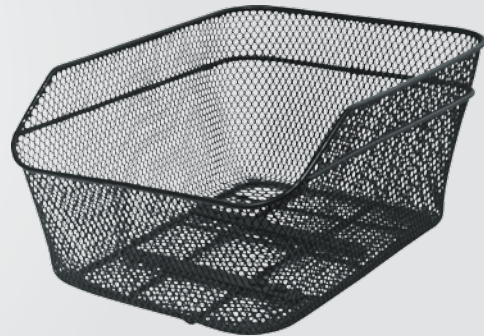

High quality front steel basket
Very handy for shopping
Quick release bracket
Click" bracket, easy to mount, with swing up handle
Fits for handlebars: 22,2mm - 25,4mm- 31.8mm
SIZE: 340x250x250mm
Carries up to 5kg

CITY FRONT

FRONT BASKET

front steel basket with brace and grip under the headset nut
Easy to mount
SIZE: 350x255x260mm (W x L x H)
Carries up to 5kg

CITY REAR

REAR BASKET

Black steel basket
Fixed mounting lengthwise on luggage carrier (including fixing material)
SIZE: 290x400x180mm
Carries up to 5kg

RATTAN FRONT

FRONT BASKET

High quality plastic rattan basket with brace and grip under the headset nut
Easy to mount
SIZE: 350x260x250mm (W x L x H)
Carries up to 5kg

RATTAN REAR

REAR BASKET

High quality plastic rattan basket
Mounting with cable ties (including 6Pcs)
SIZE: 300x410x190mm
Carries up to 5kg

LOAD REAR

REAR BASKET

High quality plastic basket
Mounting with cable ties (including 6Pcs)
SIZE: 30x41x19cm
Carries up to 5kg

LOAD FRONT

FRONT BASKET

High quality plastic basket with brace and grip under the headset nut
Easy to mount
SIZE: 35x26x25cm
Carries up to 5kg

BUNGEE

STRAP

Double banded elastic bike strap with hooks
Keeps your cargo tight on your bike rack

CONVOY

BICYCLE RACK

For MTB / Cross (26 – 29") bikes
Material aluminum alloy
Suitable for disc and V-brakes
Max load 25kg
With spring
Bracket for lights or reflector

PORTER

BICYCLE RACK

Ø25,4 – 32mm
Quick release TOOLFREE bracket
Material aluminum alloy
Rubber pad for a better grip and seat post protection
Max load 10kg
Bracket for lights or reflector

DRIZZLE FRONT

MUDGUARD

Front mudguard
Suitable for all types of frame tubes
Simple mounting on headtube
Fits 27,5"-29" wheel size

DRIZZLE REAR

MUDGUARD

Rear mudguard
Mudguard holder with an adjustable angle
Simple mounting on all seatpost diameters
Fits 27,5"-29" wheel size

THUNDER

MUDGUARD SET

front and rear mudguard
rear mudguard holder with two joints and an adjustable angle
simple and quick mounting

FUSE

MUDGUARD SET

front and rear mudguard including two clamp diameters for all frame types
adjustable rear mudguard holder

KNIGHT

MUDGUARD SET

front and rear mudguard
front mudguard with Turner system - Two position quick release system
rear mudguard with SQR System - Smart Quick Release System.
QR system for all seat posts diameters
rear mudguard holder with two joints and an adjustable angle

STORM

MUDGUARD SET

Front and rear mudguard for MTB and Cross
Two ways of mounting on the seat tube:
1. Fixation by adjustable mudguard bracket
2. Fixation by flexible mounting strap
Suitable for all frame types

GUARD

MUDGUARD SET

Front and rear mudguard for MTB and Cross
Increased protection for front derailleur
Excellent protection on wet or muddy terrain

RAINY

MUDGUARD SET

Front and rear mudguard for Cross and
Trekking bikes with metal stays
Excellent protection on wet or muddy terrain
Fixation material included
Easy to fit
COLOR: black

WET

MUDGUARD SET

Front and rear mudguard set for
MTB
Fixation material included
Easy to fit, metal stay for increased
stability of rear mudguard
Suitable for disc brakes thanks to
special washer
Fits 29" wheel size

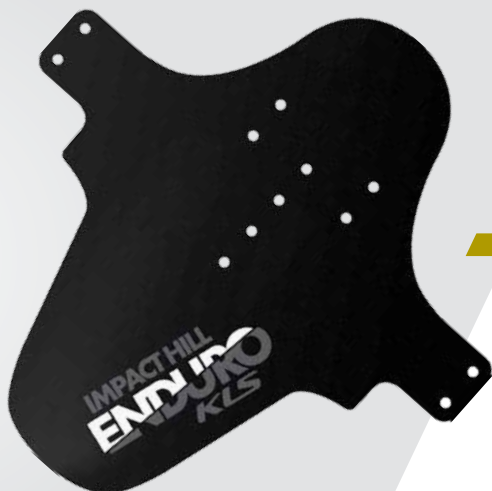

FOGGY

MUDGUARD SET

Front and rear mudguard for children bikes
Suitable for 20" wheels
Fixation material included
Easy to fit
COLORS: black-grey, black-green, black-blue, white-pink, white-grey

IMPACT HILL

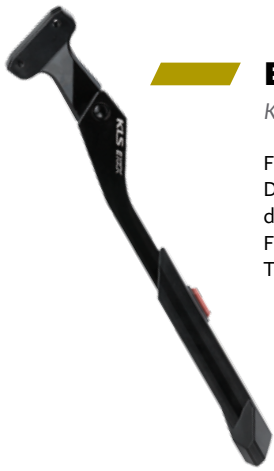

MUDGUARD

Universal FRONT or REAR mudguard with pre-cut holes for cable ties

FRONT mudguard stopping the mud and dirt that's thrown into your eyes from the front wheel, also give additional protection to your fork seals.

REAR mudguard protecting your suspension system (linkages, bearings, joints) and shock from getting dirty

Suitable for forks from 80mm to 200mm travel, fits 26", 27,5" and 29" wheel size.

FINISH: sand blasted black,
natural silver

AL 7050 – Strongest aluminum alloy, commonly used in rock-climbing equipment, hang glider frames, military, automotive and, of course, bicycle industry. Toughest material, but difficult to weld. That's why it is used mostly for Handle Bars only.

AL 6061 – Aluminum alloy commonly used in home build or hobby aircraft, yacht constructions or scuba tanks. Provides very good ratio between strength and affordability.

DOUBLE BUTTED – 2 thicknesses of material are combined to provide best of both – strength and lightweight. Where the material needs to stand against strong pressure, it is thickened to provide extra strength. On points where the material is not handling that much pressure, it is thinned to reduce unnecessary weight.

T6 – process of increasing the material hardness by heating the material to a certain temperature for certain period of time. Times and temperatures may vary based on materials used. This process arranges atoms in molecular structures which greatly increase the strength of material. Also called "Aging Process"

3D FORGING – Solid block of heated aluminum is compressed into desired mould. Advantage of this technology of forging is that no welding needs to be used, so the component is lighter and stronger in the end.

POISON

GRIPS

2 alloy lock rings for slip-free performance and easy mounting
Extra soft materials for extra comfort
Rough design for tight grip and ultimate ride control
Plastic plugs included

WIDTH: 135mm

COLORS: Red, Green, Blue, Yellow, Orange, White, Black

TOKEN

GRIPS

Semi ergo shape
Combines comfort of ergo grip yet can handle rough MTB terrain
Single-lockring version for slip-free performance and easy mounting available
2 density kraton rubber for soft touch and shock absorption

WIDTH: 135mm

COLORS: Red, Green, Blue, Turquoise, Purple, Yellow, Orange, White, Black

SILICA

GRIPS

Silicone grips made for absolute comfort
Excellent performance – wet or dry

WIDTH: 130mm

OUTER DIAMETER: Ø34mm

COLORS: Red, Green, Blue, Turquoise, Purple, Yellow, Orange, White

ADVANCER

GRIPS

2 density kraton rubber for soft touch and shock absorption
Designed for tight grip and ultimate drive control

WIDTH: 130mm

COLORS: Red, Green, Blue, Turquoise, Purple, Yellow, Orange, White, Black

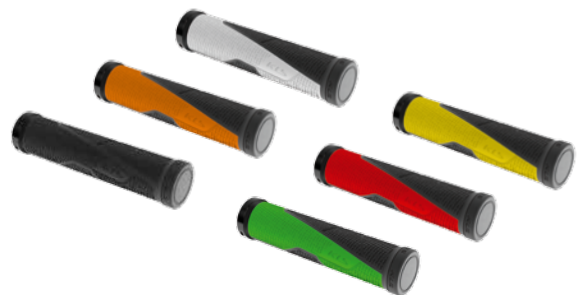

CRYPTON

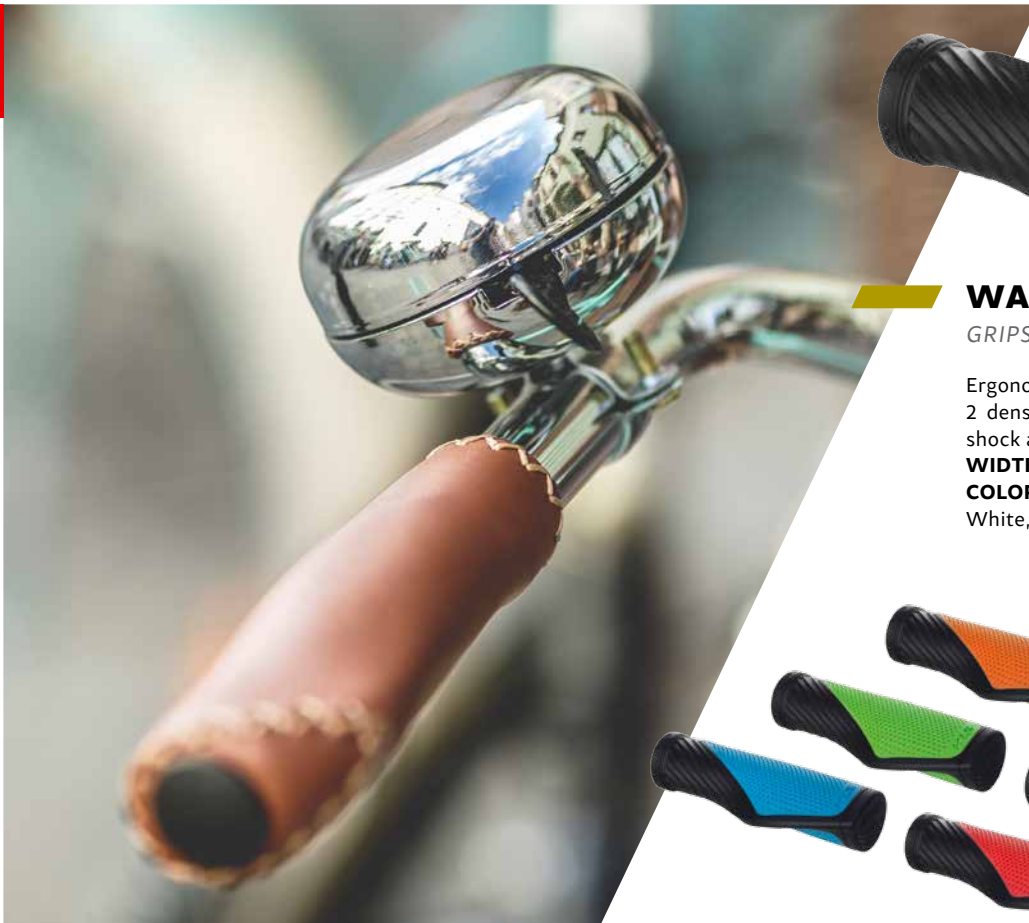

GRIPS

Single LockOn for slip-free performance and easy mounting
2 density kraton rubber for soft touch and shock absorption
Designed for tight grip and ultimate ride control

WIDTH: 135mm

COLORS: Red, Green, Blue, Yellow, Orange, White, Black

WAVE

GRIPS

Ergonomic shape ensure maximum comfort
2 density kraton rubber for soft touch and shock absorption

WIDTH: 135mm

COLORS: Red, Green, Blue, Yellow, Orange, White, Black

KIDDO'

GRIPS

Slip protection helps your youngest to keep hands on handlebars at all times
Designed to fall in love with instantly

WIDTH: 95mm

COLORS: Red, Green, Blue, Yellow, Pink, Purple, White, Black

HOLLANDGRIP

GRIPS

Ergonomic Shape
Designed for stylish ride through your city
Provides excellent grip with optimal control

WIDTH: 132, 132/92 mm

COLORS: Brown, Black

SHORTGRIP

GRIPS

Kraton rubber absorbs vibration
Designed for Twist-Grip systems

WIDTH: 90mm

COLOR: Black

BASTOGNE

HANDLEBAR TAPE

Microfiber with EVA base with VexGel™ adhesive for ultimate vibration absorption and durability
 Diamond pattern for enhanced grip even without gloves
 Easy cleaning surface
 End-plugs, short stripes and flexible finishing tapes included
COLORS: Black, Blue, Red, White

TRENTO

HANDLEBAR TAPE

Durable EVA tape with VexGel™ adhesive ultimate vibration absorption
 Tacky soft touch surface for all-day long comfort
 Easy cleaning surface
 End-plugs, short stripes and flexible finishing tapes included
COLORS: Black, Blue, Jersey rojo red, Maillot jaune yellow, Green, Maglia rosa pink, Neon yellow, Polka dot white

CNC
MACHINED
AL6061 CRMo

STEALTH

PEDALS

Platform pedal with a concave body
CNC machined pedal made of 6082 aluminium alloy
Thru Pins
User maintainable
Supplied with 2 full sets of 8mm pins
Body: CNC aluminum
Axle: CNC-machined Cr-Mo
Bearing: Sealed cartridge bearings
SIZE: 105 x 100mm
WEIGHT: 390g

REIN

PEDALS

BMX/MTB platform pedals made of thermoplastic reinforced by fiber glass
Axle: Cr-Mo steel
Bearing: LSL bushing & sealed
Pins: Replaceable grip pins, 2 extra pins included
DIMENSIONS: 100 x 95 x 18mm
WEIGHT: 350g/pair
COLORS: black, yellow, green

MACHINED
CNC
AL6061 CRMo

FLAT 50

PEDALS

Aluminum pedal for BMX/MTB
Pins: Replaceable grip pins and 2 extra pins included.
Axle: CNC-machined Cr-Mo
Body: Die-cast aluminum
Bearing: LSL Bushing & Sealed
SIZE: 115 x 108mm
WEIGHT: 550g
COLORS: Black, Lime, Orange

FLAT 50 BB

PEDALS

Aluminum pedal for BMX/MTB
Pins: Replaceable grip pins and 2 extra pins included.
Axle: Boron steel
Body: Die-cast aluminum
Bearing: Ball bearings
SIZE: 115 x 108mm
WEIGHT: 550g
COLORS: Black, Lime, Orange

CLIP 30

PEDALS

Aluminum SPD Compatible pedal for MTB
One side SPD cleat, stable platform on the other.
Body: Aluminum
Axle: Cr-Mo
Bearing: Sealed
SIZE: 98 x 63mm
WEIGHT: 322g

CLIP 10

PEDALS

Aluminum SPD Compatible pedal for MTB
One side SPD cleat, stable platform on the other.
Body: Aluminum
Axle: Cr-Mo
Bearing: Sealed
SIZE: 103 x 63mm

FLAT 10

PEDALS

Plastic pedal for BMX/City

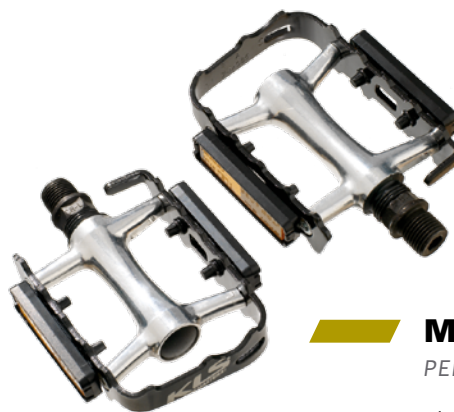

Body: Plastic

Axle: Boron

Bearing: Ball bearing

SIZE: 110 x 104mm

WEIGHT: 320g

MASTER

PEDALS

Aluminium pedal for MTB/Cross

Body: Aluminium

Axle: Cr-Mo

Bearing: Ball bearing

SIZE: 95 x 78mm

WEIGHT: 264g

TRAIL 30

PEDALS

Aluminium pedal for Cross/City

Body: Aluminium with non-slip rubber surface

Axle: Boron

Bearing: Ball bearings

SIZE: 108 x 84mm

WEIGHT: 390g

TRAIL 10

PEDALS

Plastic pedal for City/Cross

Body: Plastic

Axle: Boron

Bearing: Ball bearing

SIZE: 109 x 75mm

WEIGHT: 384g

JACK 90

TIRE LEVERS

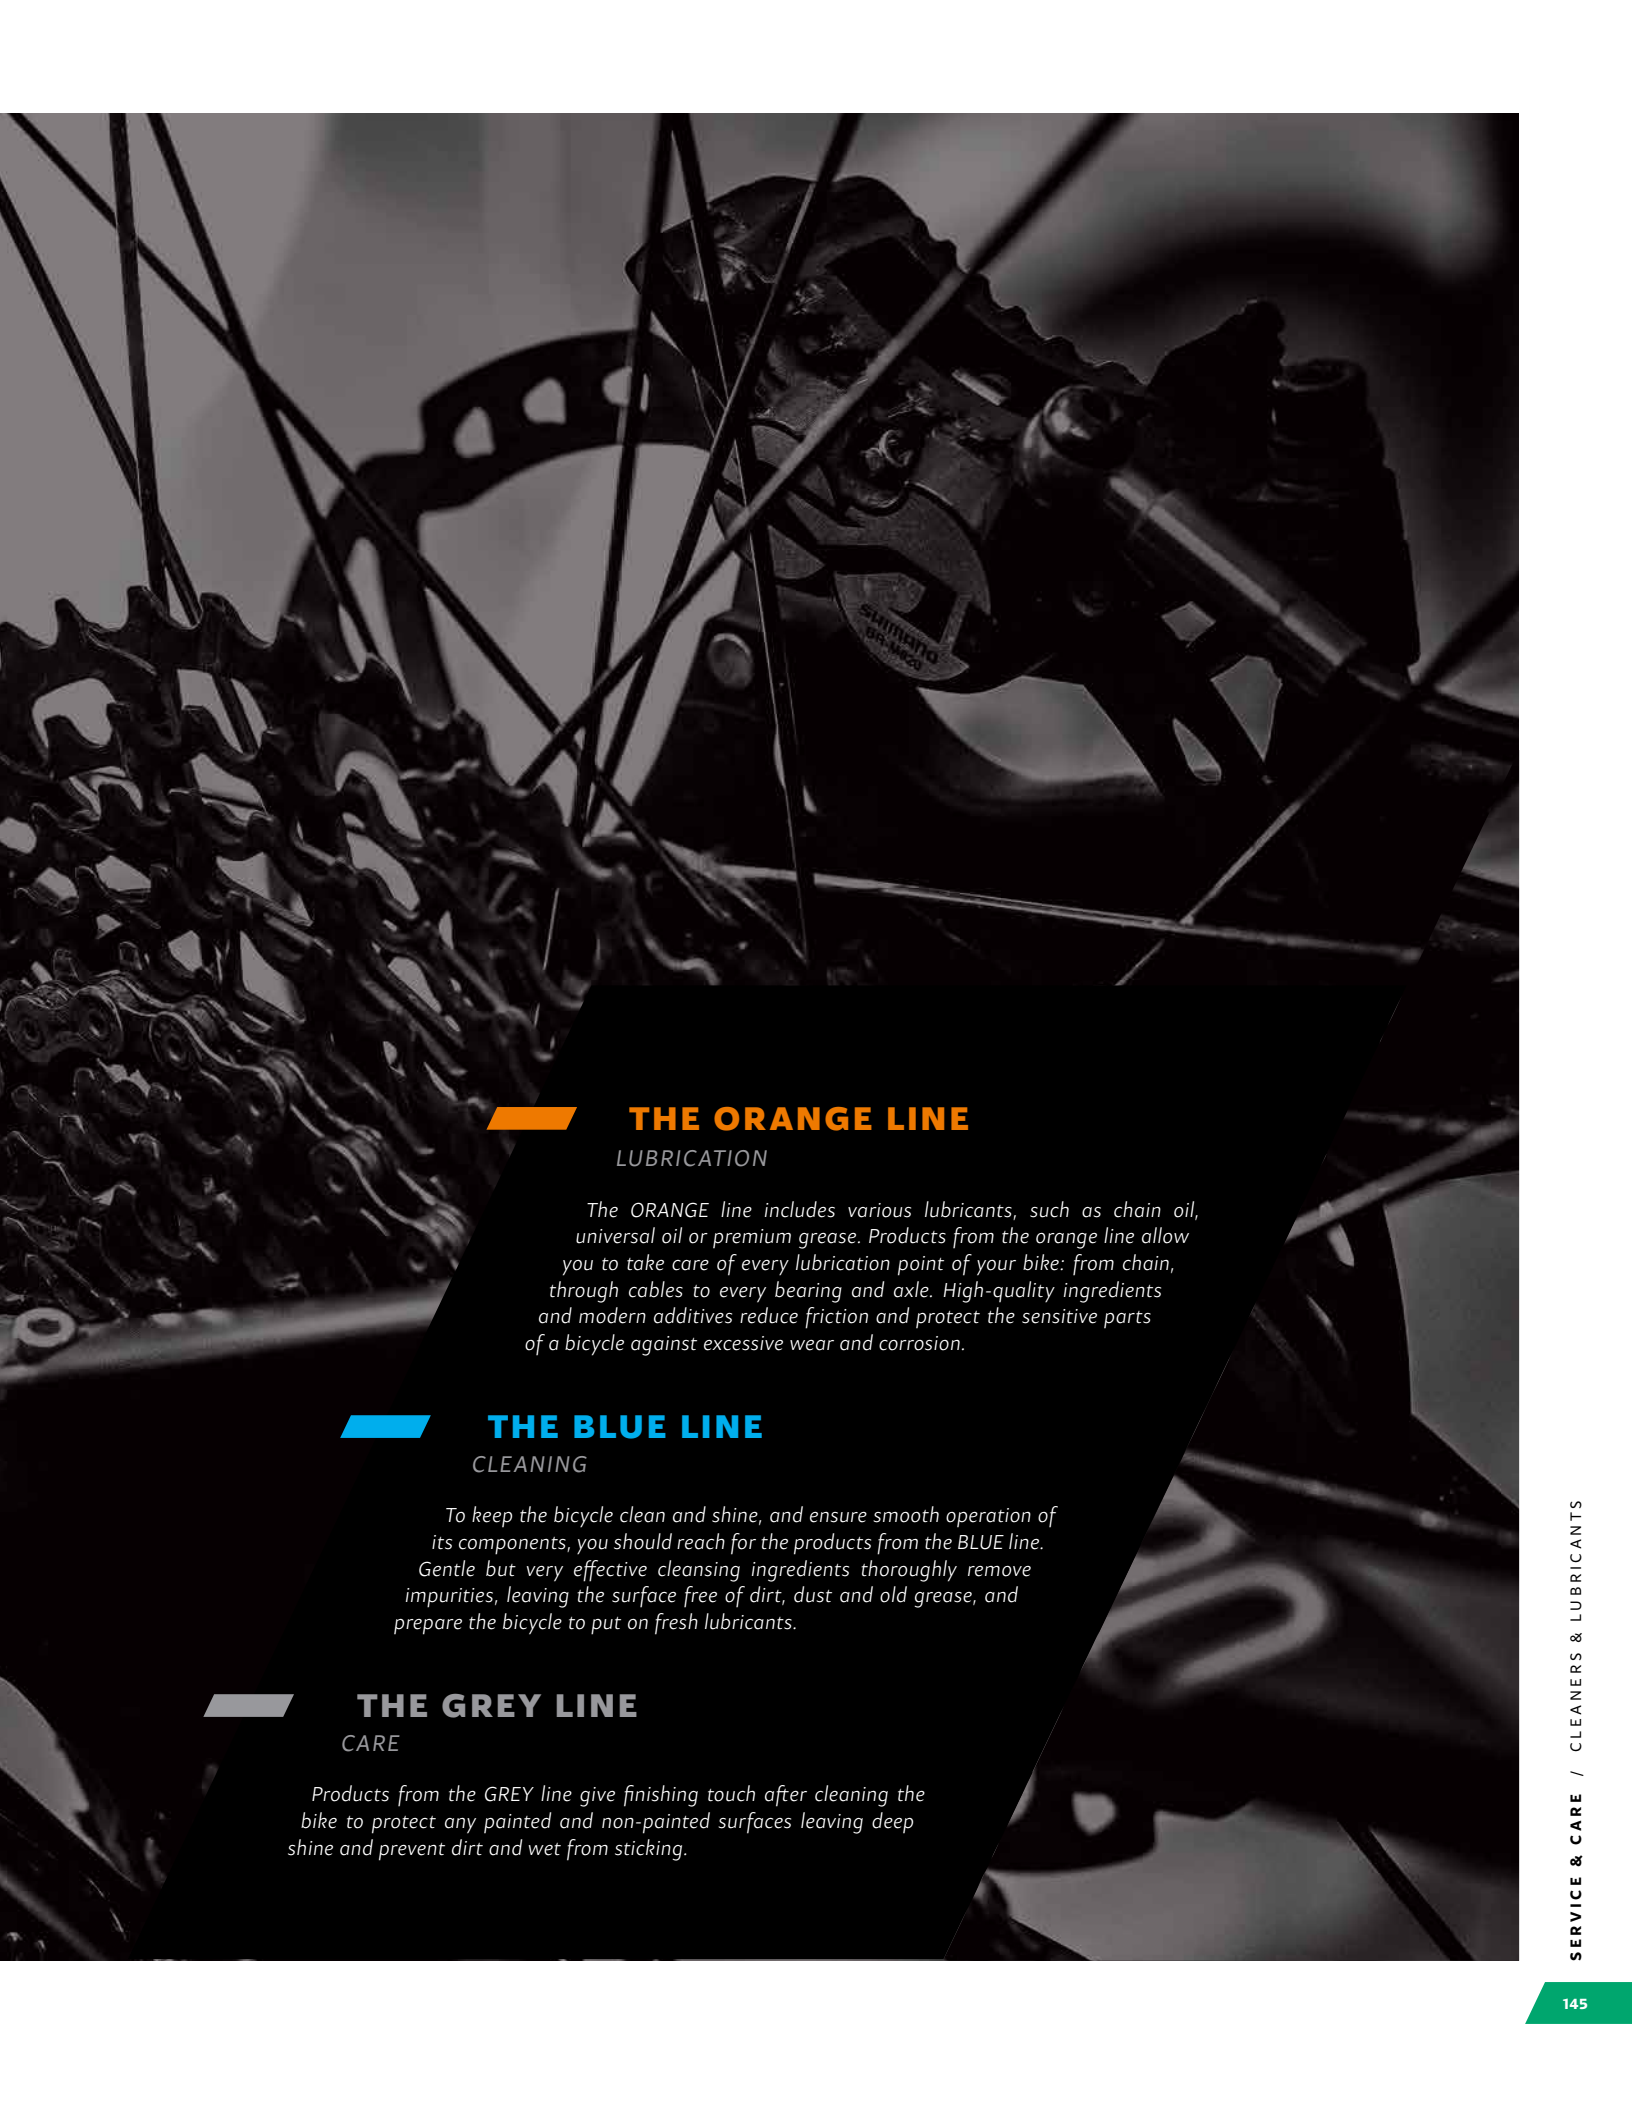

Aluminum tyre lever w/Hi-polish finish
Surrounded with the plastic protector to
avoid rim from damage during use.

SERVICE & CARE

CLEANERS & LUBRICANTS

THE ORANGE LINE

LUBRICATION

The ORANGE line includes various lubricants, such as chain oil, universal oil or premium grease. Products from the orange line allow you to take care of every lubrication point of your bike: from chain, through cables to every bearing and axle. High-quality ingredients and modern additives reduce friction and protect the sensitive parts of a bicycle against excessive wear and corrosion.

THE BLUE LINE

CLEANING

To keep the bicycle clean and shine, and ensure smooth operation of its components, you should reach for the products from the BLUE line. Gentle but very effective cleansing ingredients thoroughly remove impurities, leaving the surface free of dirt, dust and old grease, and prepare the bicycle to put on fresh lubricants.

THE GREY LINE

CARE

Products from the GREY line give finishing touch after cleaning the bike to protect any painted and non-painted surfaces leaving deep shine and prevent dirt and wet from sticking.

SILICONE OIL

Silicone Oil is suitable for oiling and preservation during repairing and maintaining bicycles, particularly shock absorbing forks (do not confuse with oils for filling shock absorbers), O-rings, rubber seals, cables, Bowden cables, and pins in gears or lever-key switches. It may also be used for general oiling.
Spray 200ml

PREMIUM LUBE WHITE

Bike lube „white“ is a highly effective white grease with content of PTFE (polytetrafluoroethylene) useful for the lubrication of slide and roll bearings, hubs, heads, pedals, etc. The lubricant excels in its high resistance against water and provides a long life for all bearings.
Tube 100g

MULTIFUNCTIONAL OIL BIO

Multifunctional Oil BIO is a biodegradable all-purpose fluid suitable for general lubrication, loosening of rusted joints, and prevention of corrosion.
Spray 200ml / Applicator 100ml

CHAIN OIL

As the name suggests, Chain oil is white lubricant for chains. The lubricant flows easily into the open spaces in the chain, lubricates the chain and protects it against rust. It is also suitable for O-ring chains. It doesn't contain excessive adhesive components and is, therefore, better suited for the lubrication of chains on mountain as well as highway bicycles under all types of conditions, from dust to rain.
Spray 200ml / Applicator 50ml

BIKE POLISH

Bike polish is cleaner / degreaser. By simply spraying on the agent it quickly removes grease, oil, dirt and brake fluid. It is suitable for degreasing chains before being lubricated by Chain oil and also degreasing bearings, brake and clutch pads and other metal components.
Spray 200ml

MULTI DEGREASER

„Multi“ degreaser is cleaner / degreaser in one. By simply spraying on the agent it quickly removes grease, oil, dirt and brake fluid. It is suitable for degreasing chains before being lubricated by Chain oil and also degreasing bearings, brake and clutch pads, and other metal components.
Spray 750ml

BIKE CLEANER

Bike Cleaner is a maintenance and cleaning agent for cleaning bicycles from mud and other contamination. Higher foaming ability ensures a lower consumption of the agent. Bike Cleaner is applied by spraying on the contaminated spots (derailleurs, pedals, hubs, frame). It is particularly suitable to clean very contaminated parts (chains, sprockets, etc.) where it adheres due to its foaming ability and thus the product consumption is lower. It does not harm paint.
Applicator 500ml/1000ml

N306PD1

BRAKE LEVERS

Left and right side brake lever set
Lightweight aluminum lever / plastic body
22,2mm Standard clamp diameter
Adjustable reach
Fits all standard straight and riser bars
Suitable for MTB, Cross, Trekking

KELLYS BICYCLES IS OFFICIAL KMC DISTRIBUTOR

- Foundation of KMC began in 1977 in Taiwan. Since then, KMC has been concentrating on chain design and production for nearly 40 years.
- KMC sales reach all over the world
- KMC is the world leader in chain manufacturing. Based on its bicycle chain manufacturing technologies, KMC also produces a variety of other chain products, like automobile timing chains, motorcycle chains, and industrial chains.
- KMC invests a lot in their R&D. KMC has broken their past achievement records: the first chain manufacturer to release a Super Lightweight chain, to offer Color chain (including Titanium-Nitride coated chain and Patriot chain), to use Diamond-Like Coating (DLC) reduced-friction technology on the chain, and to achieve the chain industry's first Carbon Footprint assessment certificate to show its commitment to eco-friendly manufacturing.

SIZE CHARTS

CASUAL / BIKE WEAR

HEIGHT:

Measure from the top of the head to the floor while standing upright.

CHEST:

Measure around your chest, with arms relaxed down at sides. Measure around the fullest part of your chest, make sure the measuring tape will go around your shoulder blades. Keep the tape parallel to the floor.

WAIST:

Measure around natural waistline, keeping the tape a bit loose.

HIPS:

Measure with your feet together, keep tape straight and measure around the widest part of your hips.

INSEAM:

Measure inside of leg from the crotch to the ankle bone.

CASUAL WEAR:

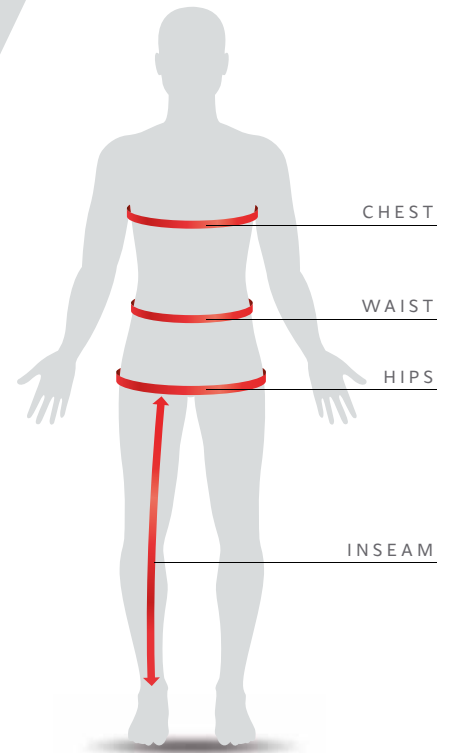

MEN'S SIZES:	S	M	L	XL	XXL
HEIGHT:	165-175	168-178	171-181	174-184	179-189
CHEST:	88	94	100	106	112
WAIST:	78	84	90	96	102
HIPS:	91	97	103	109	115

WOMEN'S SIZES:	XS	S	M	L	XL
HEIGHT:	159-169	162-172	165-175	168-178	171-181
CHEST:	82	88	94	100	106
WAIST:	64	70	76	82	88
HIPS:	90	96	102	108	114

BIKE WEAR:

MEN'S SIZES:	S	M	L	XL	XXL
HEIGHT:	165-170	170-175	175-180	180-185	185-190
CHEST:	88-92	92-96	96-100	100-106	106-112
